

## Welcome to X-Rite GmbH Optronik at ISAL 2007!

Darmstadt, 2007, September 25-26

The first Symposium on automobile lighting at Darmstadt University of Technology was realized in 1995. ISAL<sup>®</sup> 2007 is the continuation of the successful ISAL<sup>®</sup> Symposium in 2005.

More than 450 experts from around the world - representing car manufacturers, suppliers, international government agencies, universities and testing organizations - attended the previous ISAL<sup>®</sup> Symposium. They met with specialists and discussed innovations and improvements in automotive lighting topics.

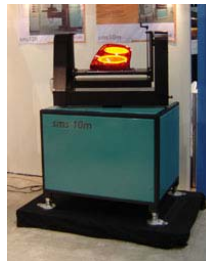

X-Rite Optronik will participate in this important event in 2007 as well. A relevant exhibition will be held during the symposium located in an exhibition venue next to the conference site.

We are proud to present and demonstrate following products used to test the photometric properties of automotive lamps and reflex reflectors:

- SMS10 C goniophotometer
- SMS10 M goniophotometer
- SNT10 high precision DC power supplies
- FMS10-14NG colorimeter
- RMS10gse retroreflectometer
- VV10dsp preamplifiers designed to measure all kind of automotive light sources including PWM LED
- LightCon software, latest version

SMS10C

SMS10M

SMS10s/SNT10

FMS1014-NG

RMS10gse

We would like to invite you to visit our booth at ISAL.

Location: Centralstation - City Caree (in the city center of Darmstadt) - D-24283 Darmstadt

The exhibition can be found outside the Centralstation from September 25-26 during the symposium.

To schedule a specific date and time for a meeting, please contact:  
Oliver Esterl, [Oliver.esterl@optronik.de](mailto:Oliver.esterl@optronik.de); +49 (0) 30 349941-24

We look forward to seeing you at ISAL 2007!
